Note for lapped riders: Your race time is calculated by dividing your finish time by the number of laps you did, and then multiplying the result by the distance completed by the winner.

Also note that the group led in by No. 95, Jordan Hargreaves, has been credited one lap down as the leader crossed the line at the back of that group

Commissaire's communique: Will all riders please ensure that they do not cross the finish line more than once. Doing so may lead to your elimination from the race.
